FOREWORD

What is a high school?
When you think of a high school, what do you see?
This is the picture that comes to me:
A high school is people--teenagers and all.
It's assemblies and classes in a rush in the hall.
It's panic at grade cards; it's black and gold;
It's thrills and excitement that never grow old.
Suspense fills the hallways, and rivalry's keen.
All yearn for a scholarship; who will be Queen?
A high school means projects and clubs with their fun.
And everyone working till all tasks are done;
Tense moments at ball games--Will we win or not?
That "Roaring Tiger" spirit means more than we thought!
What is a high school? What is its story?
We've told it here in all of its glory!

WE AFFECTIONATELY DEDICATE OUR 1964 "TIGER" ANNUAL TO

WESLEY W. REESE

My dear Mr. Reese,

We should like to thank you for your sincere guidance and wise words of wisdom as our business education instructor. Your efforts during the past five years not only have truly enhanced our class but also have personally harvested many friendships.

We dedicate this yearbook to you in the hope that throughout the years to come you will remember our class with fond memories.

"What do you mean, you overslept?"

Every zoo needs its keepers,
ours is no exception.

OUR CURATOR

MR. JASPER E. COWART, Superintendent
Gilbert Public School System

The problems of adaptation to the technology of the space age will involve each of us in varying degrees, nevertheless there will be opportunities for moments of reflection. What better way than to sit for a few minutes with the annual, reviewing acquaintances, reliving some of the joys and heartaches we shared in our preparation for living productive lives.

OUR CHIEF ZOOLOGIST

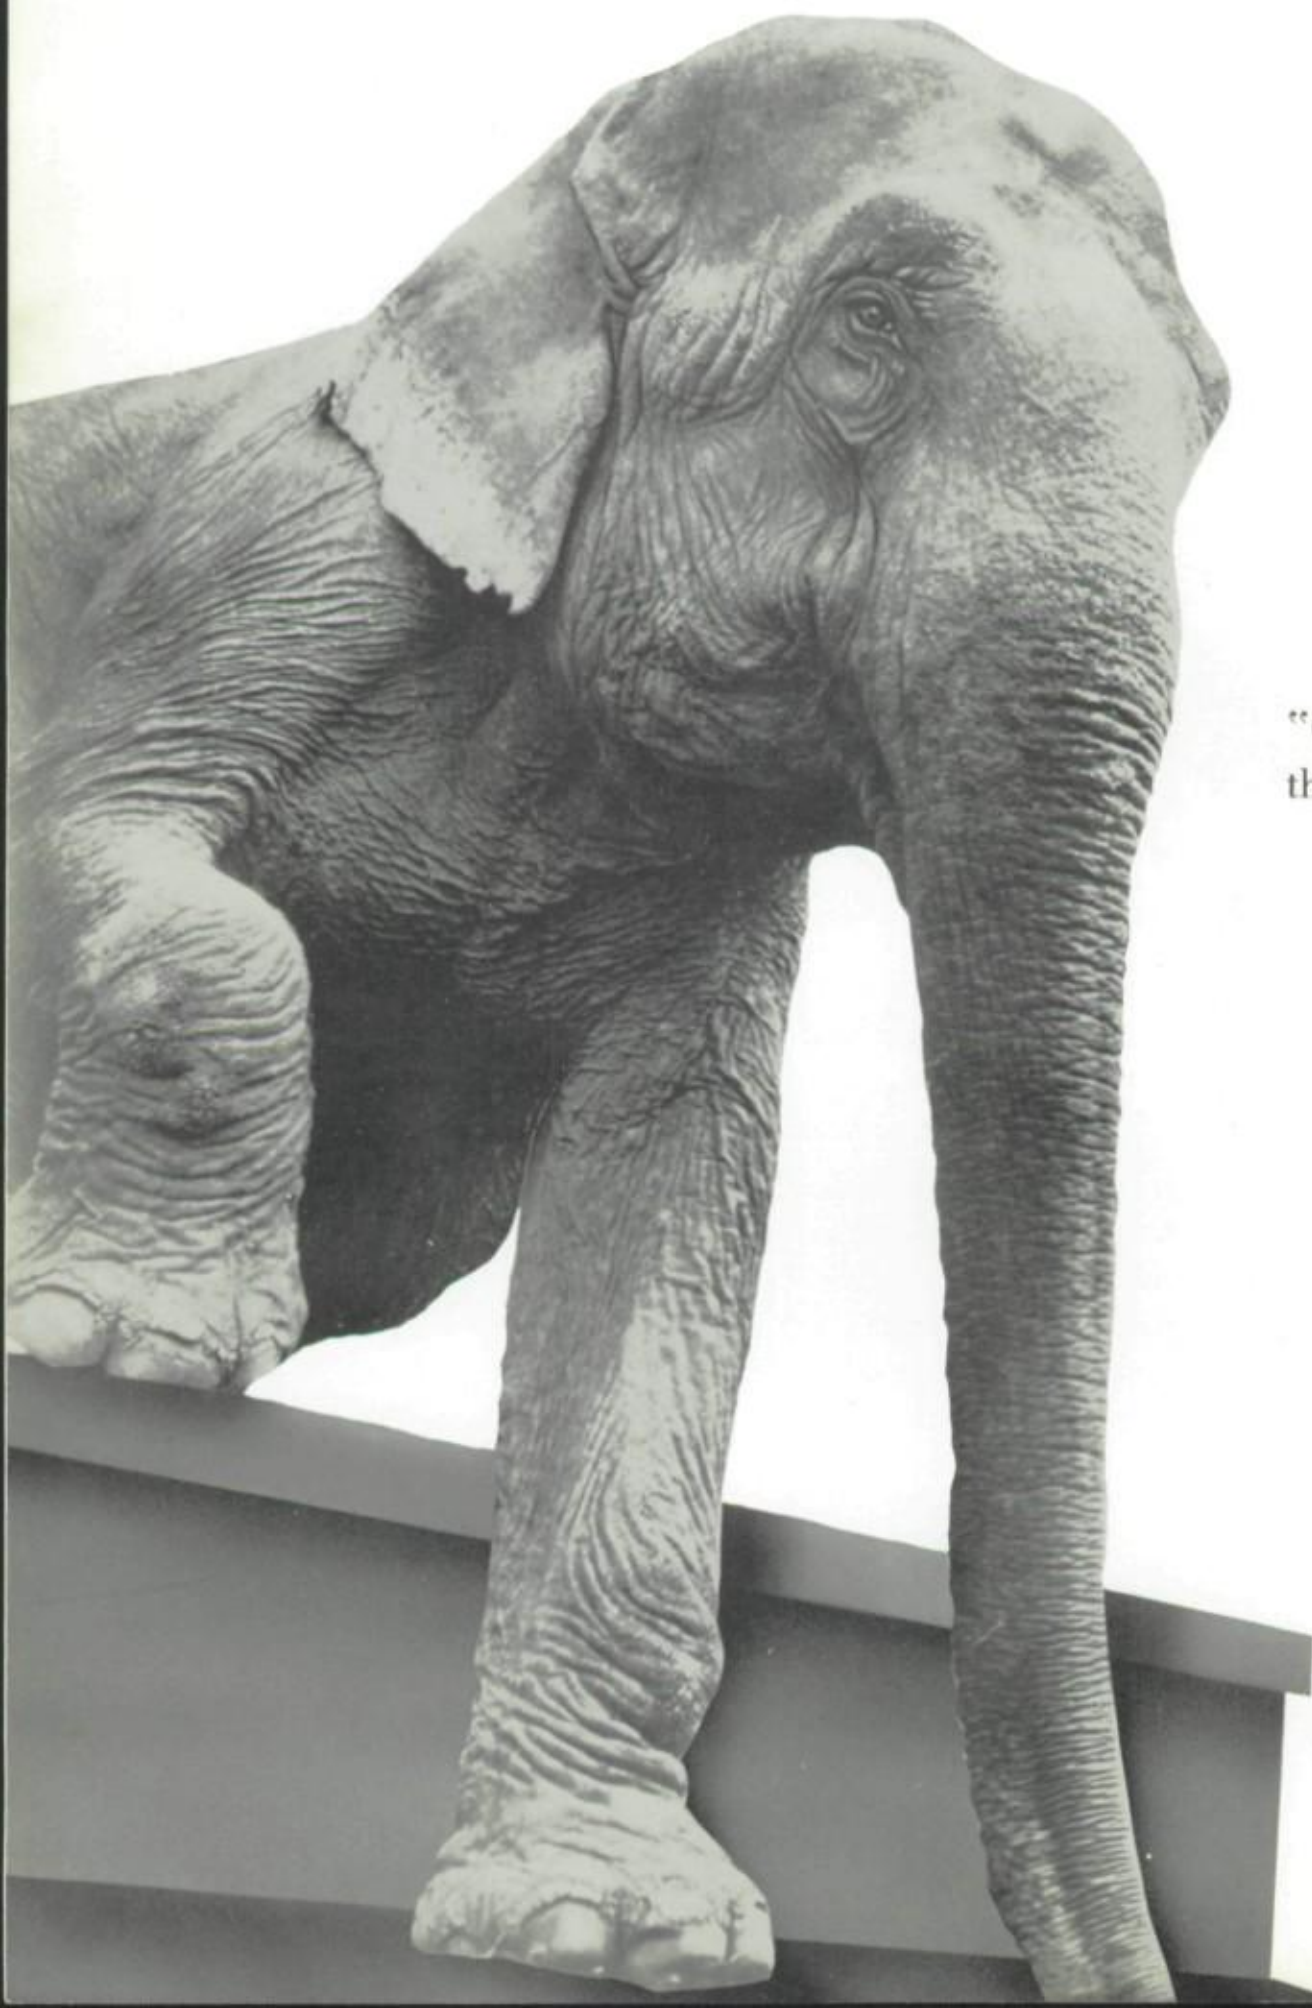

MR. McGRATH

We are living in an age of rapidly accelerating technological change. Electronic digital computers can, in a few hours, outperform a man's lifetime of work. Automation is replacing workers by the hundreds of thousands. "Jets" and rockets have shrunk the earth to a small fraction of its former size and all nations have practically become "next door" neighbors. Peoples of the once remote and undeveloped parts of the world are clamoring for a "place in the sun."

Sudden change results in uncertainty and unrest. The challenge is great - the responsibilities are even greater. Members of the class of 1964 will be pioneers on radically new frontiers. Congratulations! and Godspeed.

← Old girl if you
weren't such a find!
It would be nice
knowing you! - Well
Esther, you're quite a
girl - It's been great
having you in class
because you're
always good for
a laugh! You
have really come
along way this
year. Improved
in looks, study,
personality &
attitude - Too

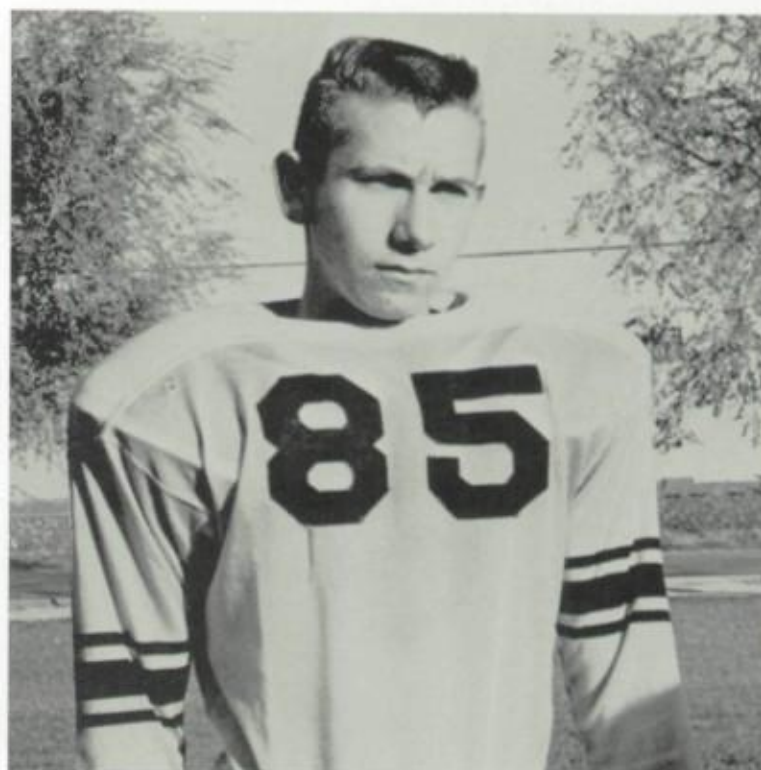

bad you can't do anything about that
face! - Oh well, we can't have everything -
I'll really miss you next year - No one to
trade insults with!

"How can I get my letter, staying in the
showers all the time?"

Tom will miss you too. No one to mess
up his wife's hair! - You'll have
to be sure and write me, & I'll let
you know when the first little
"German" comes along. Esther, keep
your terrific personality! - & keep active
in school - & don't settle for anything
but the best! - Well, so long Finks Finks -

WISHING...

Won't Make It So

Accomplishment takes planning and the best time to start is now.

As you go on in life, you'll find again and again that a good education, wisely used, has more to do with the realization of your plans and dreams than Lady Luck ever does.

It is the same with the energy business. We have to plan far ahead to be certain you will always have all the electric and natural gas energy you need for all the work you wish to do.

My dearest friend Esther, (good thing you reserved
this page for me or else I don't know what I would
of done there isn't much space left) Well Esther
school is almost over, imagine you'll be a junior
next year isn't that neat? I wish I could still
graduate with you guys but anyway I'm following
your footsteps I'll be a junior in no time at all
like you kids, my we sure have had pretty
good times together this year huh? remember
in Biology when they almost kicked us out
for a week? now can we forget anyway it
was all Elva's fault huh? we didn't talk
out of respect she's a little girl except for the
time they send us to the library for Mr
Burgdorff I feel sorry for him. I'm glad
you kept out of my way in Biology or else
you would of hurt this semester, I'm glad you
getting better grades. as for me (forget it)

How about you and I planning on a lot of
fun this summer? We could have a blast!!
~~together~~ Don't forget, whenever you get the car
remember that you have a friend who is in the
country (just when you get the car) I hope
we get to see each other during the summer, I hope
I get to go to California and you with my "boy"
will show Calif what kind of girls Arizona have
(boy). Esther, I hope our friendship never parts
no matter what happens never forget me
I'll never forget you. Keep up your good looks
and your funny sense of humor, and most of
the reason (remember) Remember never get
discouraged, everything will turn out fine.

Better go now I hope I get to sign your
next year annual "also" Good luck in Pom-Pom and
everything you're trying for May 1st. Bless you and "Keep
you happy and safe. Isabella C. Big Deal

Escher, well what can I say about a person like you except that I really enjoyed your friendship this year and hope that this summer and in the coming years will become better acquainted friends. You know that the guys will be leaving this summer (June) for six months and we have to find new replacements so why not do it together. I sure had a blast with you around school and at home when we have our gab sessions. I guess now that I'm graduating a big change is going to take over - I sure hope so, in a way - but all my friends act goofy so why should I change - I guess its for the best - because this going out into the world is serious business ^(hah). Next year you'll be a junior then a Senior - boy how fast time does fly - boy then the big change - boy never - because you're an exception you'll never change - no day cuts and nice and you'll go a long way into outer space - "Destination Mars" - maybe you'll feel at home with those martians - ~~to~~ (no offense - because of your laugh!) It sure was fun going to the prom this year - I really never thought it would be that much fun - "it's so romantic", dancing in the dark with soft - dim - - - dim - - - lights - - - ah! Lets make the guys go to school next year then we can go again to the prom - OK? - OK! - Boy this year sure was a blast for me - especially going to Senior day at Ilog staff - wow - wee - wow - - - - -

we'll hope to see you around this summer and future years - big deal! - all I have to do is walk a little ways and I'm standing in your front door.

Wish you luck, love, and laughter!

Always

Esther,

Well you Bied we are not at the last weeks of school and we sure have had a blast. We are going to be big Juniors next year. Than we are going to have a change to go to the Pom. We sure have been fun been your friend these year. Also we were sure in a big jam this year when we got kicked out of home room ~~didn't~~ as. Yesterday Mr. Inghis thought I was going to ask him to sign my Annual. ~~Kicked~~ asked him to do it, and he asked her why ^{she} ~~he~~ asked ~~him~~ to after kicking her out of class, hope to see you next year, and hope you will be the next Pom Pom on the line. ~~Hope to have~~ more classes with you next year.

Keep up with your ones. And then ~~need~~ maybe I'll change your name from Bied to something else. Good luck in the future. Of course with the boys too,

Best Wishes
